

**SUSI: AN APP FOR INCOMING SENIOR HIGH SCHOOL STUDENTS CHOOSE THEIR
CAREER PATH**

INTRODUCTION

The study developed a system entitled “SUSI: An App For Incoming Senior High School Students Choose Their Career Path” that aims to help incoming senior high school students who are still undecided on which strand they will take. The game allows the user to play a character that interacts on the outside world, the game has 5 maps 1 for each strand in Senior High School and each map has a different quest to be done. Upon interacting on the virtual world, the player will gain insights about the strands in Senior High School that will help them choose what strand they'll take.

ACKNOWLEDGEMENT

The authors would like to express their deepest gratitude and immeasurable love to the people who gave much-needed support and motivation to complete this study, especially to the following:

First, God for the wisdom, knowledge, perseverance and for giving these opportunities to them; and for giving them strength to do this thesis project.

Mr. Jhune Hay L. Mitra, the thesis adviser, for consistently reminding the researchers to do the best work they can on their thesis and for his unwavering support, patience, and encouragement as well as for his comments, suggestions, comments, advice, and supervisions throughout the study;

Mr. Alvin Catalo, technical critic, for consistently reminding researchers of their thesis, for being approachable, for warmly welcoming all inquiries about the researchers' research, for his pieces of advice and suggestions on the development of the system, and, most importantly, for his patience;

Mr. Alvin Catalo, research adviser, who also guided them and all the students taking their research study to finish and meet deadlines from time to time. Most of all, his patience in dealing with the researcher's questions, revisions, and manuscripts contributed a lot to the researchers finishing the study on time;

Mr. Zannie I. Gamuyao, statistician, for helping the researchers the study in the statistical analysis;

Mr., English critic, for helping the researchers of the study in proper criticizing of the study's documents;

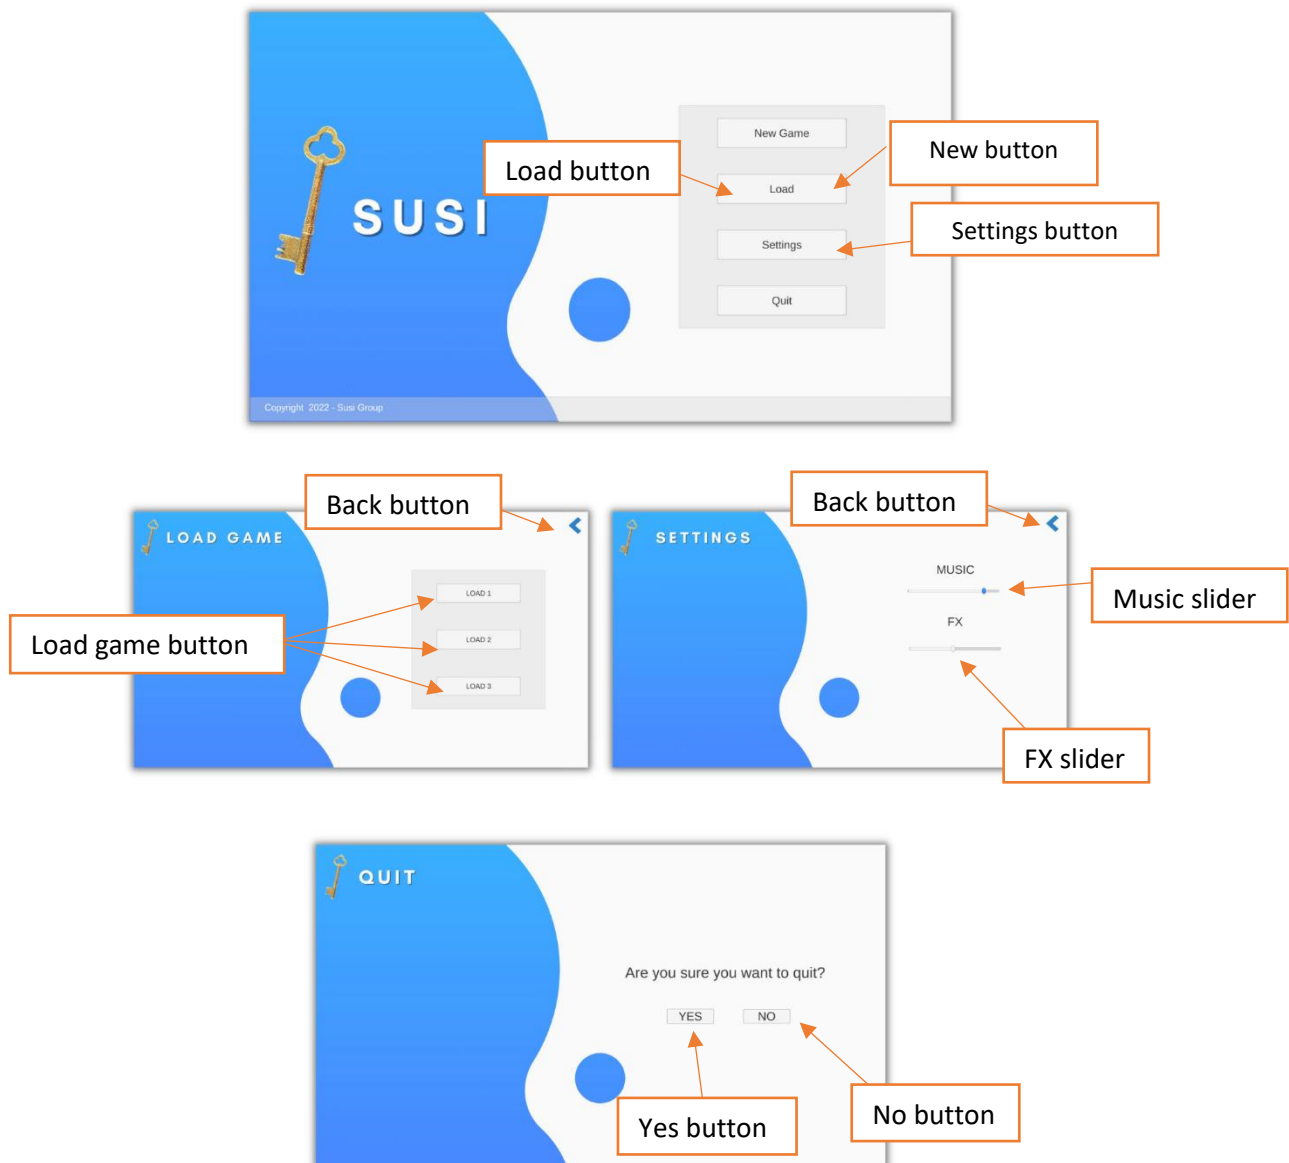

All members of the panel, Ms. Maria Frances Caloobanan and Ms. Alvina Ramallosa, for giving valuable suggestions and comments and for patiently reviewing the manuscript;

Prof. Menvyluz S. Macalalad, our campus administrator, who also inspired this batch not to give up and continue for whatever they desire to

Mr. Adorando Darwin, Principal and Mr. Elarcie Balsomo, Instructor and Research Coordinator in Baco National High School for giving us chance to interview and gathered data to continue the the researcher's study.

In addition, they would also like to express their thanksgiving and happiness for all the instructors who have been part of their college life; to their classmates, closest friends, and bachmates who shared laughter, experiences, and trouble times with them, for without them, college life would not be happier than ever; to their parents and guardians who fully supported the researcher's study

MAIN MENU

New Game Button – Start a new progress.

Load Game Button – return to a previously saved game.

Quit Game Button – exit the game but before that there's another question before leaving and answerable by 'Yes' or 'No'
